30-DAY MEDIA REPORT – RESEARCH ARTICLE

Original paper: Targeting SOD1 via RNAi with PEGylated graphene oxide nanoparticles in platinum-resistant ovarian cancer

Journal: Cancer Gene Therapy

Authors: Attila Szénási, Enakshi Sivasudhan, Hong Du, Peizhuo Zhang, Jie Huang, Zhijun Zhang, Sonia Rocha & Mu Wang

Date Published: 15 August 2023

DOI: <https://www.nature.com/articles/s41417-023-00659-2>

Title of press release: Potential target for reversing drug resistance in ovarian cancer identified

Date Published: 6 September 2023

Total number of unique readers of the media outlets that picked up the article per month:
13,907,898

Altmetric score

In the top 1.5% of all research outputs scored by Altmetric.

The Altmetric Attention Score for a research output provides an indicator of the amount of attention that it has received. The score is derived from an automated algorithm, and represents a weighted count of the amount of attention we've picked up for a research output.

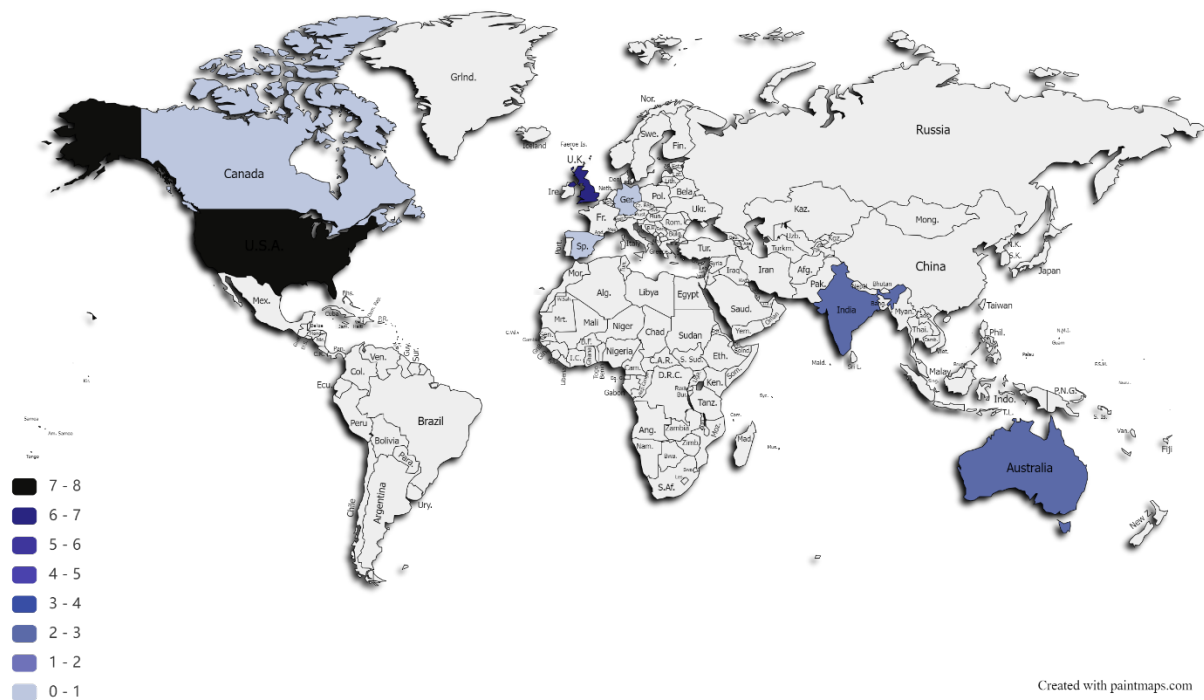

Number of media outlets that picked up the media release (excluding Chinese outlets):

25

Languages the article has been translated into (not including Chinese):

Spanish, German

Number of media outlets that picked up the media release by country (not including China)
