Journal: People and Nature

Authors: Huxuan Dai, Ziyun Zhu, Balzang Trachung, Drugkyab Golog, Mark Riley, Zhi Lü, Li Li

Date published: 7 July 2024

DOI: <https://doi.org/10.1002/pan3.10675>

Title of press release: Braiding community values with science is key to ecosystem restoration

Date Published: 7 July 2024

URL: <https://www.xjtlu.edu.cn/en/news/2024/07/braiding-community-values-with-science-is-key-to-ecosystem-restoration>

Total number of unique readers per month of the media outlets that picked up the article:

164,367,579

Altmetric score:

In the top 2.7% of all research outputs (approximately 26 million) scored by Altmetric. ([For more details...](#))

The Altmetric Attention Score for a research output provides an indicator of the amount of attention that it has received. The score is derived from an automated algorithm, and represents a weighted count of the amount of attention we've picked up for a research output.

Number of non-Chinese language media outlets that picked up the media release:

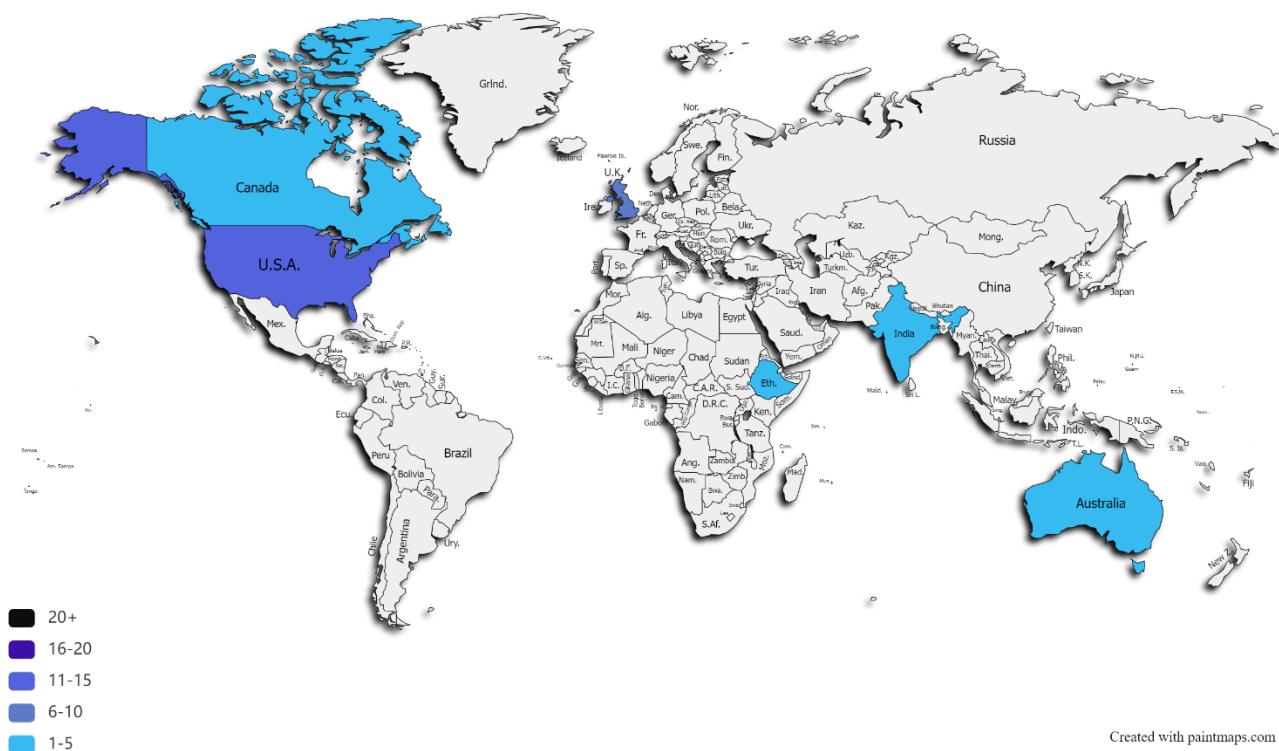

16

Languages the article has been translated into (not including Chinese):

Indonesian

Number of non-Chinese language media outlets that picked up the media release by country:

Global media coverage - research

Advertising value equivalency* (USD):

\$309,011.05

*Advertising value equivalency (AVE) is used to measure the dollar value of media coverage. AVE measures the size of the media coverage, the space it was put, and calculates the advertising rate for a similar ad.

Thanks for your support and we look forward to working with you again!
